

DAVIS KELVIN GERARD

4702 Mangum Rd, Apt 403, Houston, TX 77092 | (832) 555-0197 | dkelvingerard@gmail.com

PROFESSIONAL SUMMARY

Highly analytical Software Engineer with a Master's degree in Computer Science and over 3 years of professional experience designing, building, and optimizing applications across diverse, multi-layered codebases. Proven track record in independent feature delivery, refactoring legacy codebases for scalability, and debugging high-throughput APIs. Expert in establishing seamless asynchronous developer workflows, shipping well-tested code, and deploying resilient cloud solutions perfectly aligned with fast-paced startup requirements.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, Java, Go, SQL, C++, HTML5/CSS3
- **Frameworks & Layers:** Node.js, Express, React, Next.js, Django, FastAPI, Spring Boot, Flask
- **Developer Workflows:** Git, GitHub, CI/CD (GitHub Actions), Asynchronous Workflows, Agile/Scrum, Code Reviews
- **Cloud & Infrastructure:** AWS (EC2, S3, RDS, Lambda), Docker, PostgreSQL, MongoDB, Redis, GraphQL

PROFESSIONAL EXPERIENCE

Software Engineer II | *HexaStream Technologies* Jan 2025 – Present | Houston, TX

- Independently scope, implement, and deliver highly scalable web features and asynchronous microservices using Python (FastAPI) and TypeScript (React), lowering system overhead by 22%.
- Lead targeted debugging and refactoring initiatives across legacy architectures, successfully identifying runtime bottlenecks to reduce end-to-end API latency by 30%.
- Champion asynchronous developer practices by authoring reproducible API documentation, technical blueprints, and providing deep, constructive technical feedback during peer code reviews.

Software Engineer I | *Apex Cloud Solutions* Jun 2023 – Dec 2024 | Houston, TX

- Collaborated asynchronously on application specifications and backend infrastructure, shipping high-performance RESTful APIs built on Node.js, Express, and PostgreSQL.
- Architected automated CI/CD pipelines via GitHub Actions, eliminating manual deployment anomalies by 40% and shortening staging-to-production cycles.
- Maintained a robust engineering footprint by configuring isolated container staging environments using Docker and AWS infrastructure (EC2, S3, RDS).

Graduate Software Engineer / Contract Developer | *InnoTech Systems* Sep 2021 – May 2023 | Houston, TX

- Balancing academic schedules to deliver project-based software solutions, engineering robust data parsers and feature updates in Python (Django) and Java.

- Debugged legacy codebases and refactored application modules for maintainability, ensuring clean, well-tested code bases aligned with rigorous performance specs.
- Gained deep familiarity with Git collaborative workflows and version control practices while coordinating asynchronously across short-cycle client initiatives.

KEY CERTIFICATIONS

- **AWS Certified Developer – Associate** – *Amazon Web Services*
- **Oracle Certified Professional: Java SE Programmer** – *Oracle*
- **Certified Professional Scrum Master (PSM I)** – *Scrum.org*

EDUCATION

Master of Science in Computer Science | *Rice University* *Graduated: May 2023 | Houston, TX*

- **Focus Areas:** Advanced Software Engineering, Cloud Computing Architecture, Distributed Systems, Scalable Algorithms.

Bachelor of Science in Computer Science | *University of Houston* *Graduated: May 2021 | Houston, TX*

- **Honors:** Magna Cum Laude. Co-founded the Open Source Development Club.
